PARADE
OF HOMES
MODEL

3,800 SQ. FT. | 4 BEDROOMS | 3.5 BATHS | SUSPENDED STAIRCASE | TWO-STORY

Meet The Sequoia, a distinctive two-story home from Espire Homes that artfully combines clean, modern design with the warmth of family living. The exterior makes an impression with its striking geometric features.

Inside, discover the first of many design surprises: a towering suspended staircase featuring a balcony-style landing with views of the lower level. The foyer opens into a sprawling great room, which stars a modern fireplace grounded by a stone hearth. The kitchen's waterfall island rests under a dropped "cloud" feature. A spacious covered porch with a fireplace overlooks the backyard. The private master suite is the ultimate in luxury with a double-stepped ceiling and plentiful windows. A floating vanity with dual sinks and wall-mounted fixtures gives the bathroom a sleek, modern edge, complemented by tile work around the glass shower and soaking tub.

At Espire, our goal is to help families find the perfect design, budget, and plan for their home. Espire Homes is our signature division of custom luxury homes featuring high-end materials and finishes. Forget the one-size-fits-all approach to construction. Our flexible, comprehensive approach allows you to scale "Home" to what's right for you.
